Increased import volumes, vessel delays and the significant impact of container and chassis shortages, have resulted in the US supply chain experiencing unprecedented capacity issues. Due to port and rail congestion, limited container and chassis availability, and extremely tight motor carrier capacity, shipments can be delayed, and transportation costs may be affected.

As a result, demurrage, per-diem and detention fees may apply. Should these costs be incurred, they will be passed onto the customer after making every effort to mitigate the charges. Our experienced staff will monitor your shipments closely, provide options when available and keep you well informed always.

Hi Amber,

Please use 8438.10.0010 as the HTS code for the ovens, as initially discussed. Thanks!

Cheers,

Hello Mahmoud and Ghasem,

I noticed that # 4 of the invoices is not classified correctly unless I do not understand something. It's the oven with attachments for the dough.

You have this item classified as 8438.10.0010/no/free
<image003.png>

I would say you should use the below tariff # and since its from Oman its duty free as well since I have the certificate of origin.
Let me know what you think.
