RE: CBP Cargo Hold
 Airway Bill, B/L, Etc.: **HLCUDX3240632156**
 Container number(s): **FDCU0172524, NIDU5211178 (2 Containers)**
 Customs entry #: **AC1-63431714**

Dear Ms. Male,

This letter is intended to provide details on the items in the containers detained by CBP on behalf of BiBi Foods.

These containers include three large flatbread ovens, which were disassembled to fit the 40' container limitations, including bread-packaging equipment. Many of the parts contained in these containers will be reassembled once cleared through customs. Also, since these units aren't local, there are essential spare parts to sustain the maintenance over time. With this initial explanation, below is a detailed list of all the items in these containers. Attached is a detailed list of each item's name and quantity, whether a disassembled part of a unit or a spare part, and the palette within which it was packed.

Another point of clarification is that these units, including the spare parts, were purchased in a bundle from the retailer, and the commercial invoice lists the negotiated price for each bundle.

We hope this aids you in assessing the items. Should you have any questions, please do not hesitate to contact us through our broker or directly.

We look forward to working with CPB to a positive outcome.

Sincerely,

Abolghasem Esmaili
Owner/Operator

Item	Palette	Name/Description	Quantity	Disassembled Unit (Y/N)	Spare Part (Y/N)
1	M-01	Base packaging machine	1	No	No
